WORK EXPERIENCE

Apiwiz | Software Engineer

India | Sep 2023 - Present

- Leading API Design module development: enabled Swagger/OpenAPI specification generation via a visual UI with version control and reusable components.
- Contributed to the API Builder module: implemented flow-based interface to design, link, and test APIs, improving the development lifecycle efficiency.
- Ensured integration of best practices for reusability, modular design, and OpenAPI compliance.
- Collaborated across frontend (React) and backend systems to deliver scalable solutions in an Agile environment.

Nowfloats (Reliance Jio Platforms) | Software Engineer

Hyderabad, India | Jun 2023 - Sep 2023

- Developed the official Jio Finance website using Next.js and Strapi CMS.
- Built full-stack architecture for Jio Loans accessed via MyJio, JFS app, and web.
- Delivered frontend features and optimizations for the Boost platform including pagination and rich text enhancements.

Cloudologic | Developer Intern

New Delhi, India | Jan 2023 - Jun 2023

- Redesigned responsive UI and improved SEO for SkillKai and Cloudologic platforms.
- Reduced load times and enhanced usability through frontend codebase optimization.

PROJECTS

Cloud Desktop Environment | MERN Stack

- Created a Linux-based cloud desktop interface with real-time virtual access.
- Enabled users to access and interact with virtual Linux environments through a secure MERN stack
